49 NORTH RESOURCES INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

JUNE 30, 2010

1. Organization and business description

49 North Resources Inc. (the "Corporation") was continued as a corporation under the laws of Saskatchewan pursuant to Articles of Amalgamation, as amended by Article of Amendment, registered under *The Business Corporations Act* (Saskatchewan) (the "SBCA") on January 1, 2008, and restated as of January 17, 2008. By Articles of Amendment dated August 14, 2009 the corporate name was changed from "49 North Resource Fund Inc." to "49 North Resources Inc." and the second preferred shares, series 1 were deleted. The companies that amalgamated to form the Corporation included 49 North Resource Fund Inc., which was incorporated pursuant to the SBCA on October 13, 2004 under the name 101062093 Saskatchewan Ltd. and amended its articles effective May 11, 2005 to change its name to 49 North Resource Fund Inc. and which, prior to the reorganization discussed below, was the general partner of the Former Partnership (as defined below); and 101110207 Saskatchewan Ltd. which was incorporated pursuant to the SBCA on October 30, 2007 for the sole purpose of facilitating the reorganization of the Corporation from its former structure as a limited partnership to its current structure as a corporation.

The Corporation is the successor by reorganization to 49 North Resource Fund Limited Partnership (the "Former Partnership") which was formed July 19, 2005 (originally under the name 49 North Resource Flow Through Limited Partnership) and is constituted a limited partnership under the laws of Saskatchewan upon the filing of a declaration of limited partnership pursuant to *The Partnership Act* (Saskatchewan) and *The Business Names Registration Act* (Saskatchewan), effective July 20, 2005.

The Corporation is a resource investment, financial, managerial and geological advisory, and merchant banking company which, as its principal business, invests in a diversified portfolio of shares and other securities of resource issuers including, without limitation, resource issuers engaged in mineral or oil and gas exploration and development, with a view to achieving capital appreciation of the portfolio. In addition, the Corporation may take control positions and play a management role in selected resource issuers and/or become directly or indirectly involved in the acquisition, development and commercialization of resource properties through one or more subsidiaries, joint ventures, farm-in or other arrangements that may be established for such purposes.

2009 Fund Roll-over Transaction

During 2009, 49 North 2009 Resource Flow-Through Limited Partnership (the "2009 Fund") raised \$8,328,800 on the issuance of 832,880 limited partnership units (the "2009 Units") in an initial public offering. Prior to December 31, 2009, the 2009 Fund invested a substantially equal amount in a portfolio of flow-through shares.

Effective February 1, 2010, the 2009 Fund transferred substantially all of their respective assets - valued at \$7,572,149 on a tax deferred "roll-over" basis to the Corporation in exchange for 4,351,810 common shares of the Corporation. Following these transfers, the 2009 Fund was wound up and dissolved and these 4,351,810 common shares of the Corporation were distributed amongst the (former) partners of the 2009 Fund. As a result, each (former) limited partner of the 2009 Fund received approximately 5.224 shares of the Corporation for each 2009 Unit they previously held. The transaction resulted in the number of outstanding common shares of the Corporation increasing to 12,754,883 immediately after the transaction.

49 NORTH RESOURCES INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

JUNE 30, 2010

2. Significant accounting policies

These interim financial statements have been prepared by management using the same accounting policies and methods as were used for the consolidated financial statements for the year ended December 31, 2009, except for the recent accounting standards adopted that are described below. These consolidated financial statements should be read in conjunction with the Corporation's annual audited consolidated financial statements filed on SEDAR.

Consolidation of variable interest entities

These consolidated statements include the accounts of the Corporation and entities that it has the ability to control either through voting rights or means other than voting rights. The Corporation's investment in Newsk Emerging Resources Ltd. constitutes a variable interest entity ("VIE") in which the Corporation was the primary beneficiary. Under the guidance of CICA Accounting Guideline 15 "Consolidation of Variable Interest Entities" the primary beneficiary is required to consolidate the VIE once control is obtained. In the Corporation's situation this was when the 2009 Fund rolled in its investment as described in Note 1 above.

Property and equipment

The Corporation follows the full cost method of accounting for oil operations. All costs incurred exploring for and developing of petroleum properties and related reserves are capitalized. Depletion of petroleum properties and production equipment is calculated by using the unit-of-production method based upon estimated proven reserves, as determined by management.

Impairment test

The Corporation performs impairment testing on long lived assets held for use annually and whenever events or changes in circumstances indicate that the carrying value of long-lived assets may not be recoverable.

Revenue recognition

Revenue is recognized from oil sales when the oil is delivered to the buyer. Royalty income received from projects in which the company has an interest are recorded when received or receivable if the amount can reasonably estimated.

Future accounting pronouncements

International financial reporting standards

In February 2008, the Accounting Standards Board ("AcSB") confirmed that Canadian GAAP for publicly accountable enterprises will be converged with IFRS effective in calendar year 2011. The Corporation's first financial statements presented in accordance with IFRS will therefore be the year ended December 31, 2011. Though IFRS uses a conceptual framework similar to Canadian GAAP, there are some significant differences on recognition, measurement and disclosure requirements. In the period leading up to the changeover, the AcSB will continue to issue accounting standards that are converged with IFRS, thus mitigating some of the impact of adopting IFRS at the changeover date. The International Accounting Standards Board ("IASB") will, however, also continue to issue new accounting standards during the conversion period. As a result, the final impact of IFRS on the Corporation's financial statements will only be measureable once all IFRS applicable at the conversion date are known.

As a result of this convergence, the Corporation is developing a plan to convert its financial statements to IFRS. Management has not yet completed its quantification of the effects of adopting IFRS. The financial performance and financial position as presented in the Corporation's Canadian GAAP financial statements may be significantly different when presented in accordance with IFRS.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

JUNE 30, 2010

2. Significant accounting policies (continued)

Business combinations

In January 2009, the CICA issued the new Handbook Section 1582 “Business Combination”, effective for fiscal years beginning on or after January 1, 2011. Earlier adoption of Section 1582 is permitted. This pronouncement further aligns Canadian GAAP with US GAAP and IFRS and changes to accounting for business combinations in a number of areas. It establishes principles and requirements governing how an acquiring company recognizes and measures in its financial statements identifiable assets acquired, liabilities assumed, any non-controlling interest in the acquiree, and goodwill required. The section also establishes disclosure requirements that will enable users of the acquiring company’s financial statements to evaluate the nature and financial effects of its business combinations. The Corporation is considering the impact of adopting this pronouncement on the consolidated financial statements.

Consolidated financial statements and non-controlling interests

In January 2009, the CICA issued a new handbook Section 1601, Consolidated Financial Statements and Section 1602, Non-controlling Interest, effective for fiscal years beginning on or after January 1, 2011. Earlier adoption of these recommendations is permitted. These pronouncements further align Canadian GAAP with US GAAP and IFRS. Sections 1601 and 1602 change the accounting and reporting for ownership interests in subsidiaries held by parties other than the parent. Non-controlling interests are to be presented in the consolidated net income attributable to the parent and the non-controlling interest is to be clearly identified and presented on the face of the consolidated statement of income. In addition, these pronouncements establish standards for a change in a parent’s ownership interest in a subsidiary and the valuation of retained non-controlling equity investments when a subsidiary is deconsolidated. They also establish reporting requirements for providing sufficient disclosures that clearly identify and distinguish between the interests of the parent and interests of the non-controlling owners. The Corporation is considering the impact of adopting these pronouncements on its consolidated financial statements in connection with the conversion to IFRS.

Manitoba properties

In the prior year, the Corporation applied for coal permits with the Government of Manitoba and has initiated airborne analysis of these possible permit locations. Some of the permits applied for were not granted, resulting in a refund during the period.

On April 27, 2010, the Corporation and Westcore Energy Inc. (“Westcore”) entered into a binding agreement for the sale of an interest in the permits and pending permits. Under the agreement, Westcore will initially acquire a 50% interest in the property covered by the permits and pending permits, together with all rights attaching to them with the ability to increase this interest to as much as 80%. The consideration payable to the Corporation under the agreement will consist of the issuance of an aggregate of 1,000,000 common shares in the capital of Westcore, together with a cash payment in the amount of \$250,000. Under the agreement, Westcore will operate all exploration and drilling activities in respect of the property and will bear responsibility for all exploration expenditures and related costs until such time as a bankable feasibility study is completed.

Westcore is obliged to expend not less than \$500,000 on exploration expenses in respect of the properties during its 2010 – 2011 exploration program and will earn additional interest in these property based upon the following: (a) provided that Westcore incurs and pays exploration expenditures in excess of \$1,000,000 on or before December 31, 2012, Westcore will earn a further 10% interest in the property; and (b) provided that Westcore completes a bankable feasibility study in respect of the property on or before December 31, 2013, Westcore will earn a further 20% interest in the property. As at June 30, 2010 the transaction still needed Westcore shareholder approval to be finalized.

49 NORTH RESOURCES INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

JUNE 30, 2010

5. Mineral properties (continued)

British Columbia properties

The Corporation entered into an option agreement to acquire up to a 40% undivided interest in certain mineral rights located in the province of British Columbia. Under the terms of the agreement, for every \$100,000 of expenditures incurred during the option period, the Corporation will acquire a 1% undivided interest in the property. In addition, the Corporation was granted a 2.5% net smelter returns royalty on the mineral claims covered under the agreement.

6. Property and equipment

	June 30		December 31	
	2010		2009	
	<u>Cost</u>	<u>Accumulated Amortization</u>	<u>Net Book Value</u>	<u>Net Book Value</u>
Automotive	\$ 65,926	\$ 53,583	\$ 12,343	\$ 12,343
Computers and software	176,561	137,381	39,180	25,373

Petroleum properties and equipment	8,939,137	2,731,563	6,207,574	-
	<u>\$ 9,586,065</u>	<u>\$ 3,045,724</u>	<u>\$ 6,540,340</u>	<u>\$ 222,394</u>

The Corporation entered into a royalty agreement with Prairie Hunter Energy Corporation, a private company who had a 50% working interest in a number of wells located in the Province of Saskatchewan.

Under the terms of the agreement, which expired December 31, 2009, Prairie Hunter could continue to drill any number of wells while providing the Corporation the option to participate in each well drilled (ie. Earn-in). For each horizontal earn-in well drilled, the Corporation will earn a gross overriding royalty of between 3-6% of all petroleum substances produced, saved and sold in exchange for incurring 31% of all costs to drill, case, complete and cap of that well. In addition, for each vertical earn-in well drilled, the Corporation will earn a gross overriding royalty of 3.75-4.5% of all petroleum substances produced, saved and sold in exchange for incurring 15.2% of all costs to drill, case, complete and cap of that well.

Effective April 1, 2010 Prairie Hunter Energy Corporation was purchased by Renegade Petroleum Ltd., a TSX-V listed company. The original terms and conditions of the gross overriding royalty remain unchanged.

7. Bank indebtedness

The Corporation's bank indebtedness consists of margin borrowing secured by the Corporation's investments held at each brokerage house. Interest is charged on the daily outstanding balance at a tiered rate equal to the brokerage houses overnight rate plus a percentage ranging from 2.0% to 2.5% depending on the amount of margin used. The Corporation has guaranteed its Oil & Gas subsidiary's line of credit. As at June 30, 2010 the Oil & Gas subsidiary's bank indebtedness was at \$552,000.

8. Related party transactions

During the six month period ended June 30, 2010, management fees of \$432,305 (2009 - \$213,464) and reimbursements of \$62,596 (2009 - \$74,283) were incurred or accrued to TMM Portfolio Management Inc. ("TMM"), and 1381613 Alberta Ltd., companies controlled by the CEO of the Corporation. These transactions are in the normal course of operations and are measured at the exchange amount and is the amount of consideration established and agreed to by the related parties.

49 NORTH RESOURCES INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

JUNE 30, 2010

8. Related party transactions (continued)

TMM is responsible for the management of the Corporation's investment portfolio in accordance with the terms of a portfolio management agreement made January 1, 2008 (the "Management Agreement") and is to be reimbursed by the Corporation for all expenses reasonably and properly incurred in conducting the Corporation's business and in performing its duties and obligations under the Management Agreement. Additionally, pursuant to the Management Agreement, TMM: (a) is entitled to a quarterly management fee equal to 0.5% of the net asset value of the Corporation calculated as of the last business day of the relevant fiscal quarter; and (b) starting with the Corporation's fiscal year ended December 31, 2008, may be entitled to an annual performance bonus, calculated as of the last business day of the applicable fiscal year, in an amount in respect of each common share that is outstanding as of such day, equal to 20% of the amount, if any, by which the sum of the net asset value per common share as of that date, plus all dividends per common share during that fiscal year, exceeds the greater of \$16.34 and the net asset value per Common share as of the last business day of the preceding fiscal year.

9. Promissory note payable

As part of the acquisition of North Rim Exploration Ltd. ("North Rim"), the Corporation issued a \$375,000 promissory note payable to the vendor (a director of the Corporation). Interest is charged at the Royal Bank of Canada prime rate plus 2%. Principal and interest payments will be repaid in no more than eight semi-annual consecutive instalments which will be based on a percentage of net earnings of North Rim. Any amount still payable after the eighth semi-annual period will be waived by the vendor. The promissory note is secured by the North Rim shares acquired.

10. Convertible debentures

On July 24, 2008, the Corporation raised proceeds of \$5,000,000 on the private placement of 9% convertible unsecured subordinate debentures. The debentures have a three-year term, maturing July 24, 2011, and bear interest from the date of issue at 9% per annum which, unless the debentures are earlier converted or redeemed in accordance with their terms, will be paid on July 24 in each of 2009 and 2010 and on maturity.

The debentures are convertible, at the option of the respective holders, at any time or from time to time prior to 5:00 p.m. (Toronto time) on July 23, 2011, into fully paid, non-assessable common shares of the Corporation at a conversion price of (i) \$11.00 per share if converted prior to July 24, 2009, (ii) \$11.75 per share if converted on or after July 24, 2009 and before July 24, 2010, and (iii) \$12.50 per share if converted on or after July 24, 2010 and prior to the conversion expiry time.

Subject to certain conditions precedent, the Corporation may redeem the debentures prior to maturity at a redemption price equal to their principal amount plus interest accruing to but otherwise unpaid to the date preceding the redemption date plus a premium equal to 6% of the outstanding principal amount if redeemed prior to July 24, 2009, 4% of the outstanding principal amount if redeemed on or after July 24, 2009 but before July 24, 2010, or 2% of the outstanding principal amount if redeemed on or after July 24, 2010 and prior to maturity.

These conditions precedent include the requirement that (i) the Corporation send notice of its intent to redeem the debentures and of the proposed redemption date to all debenture holders at least 60 days and not more than 90 days prior to such redemption date, (ii) at the time of sending such notice, the weighted average trading price of the company's common shares for the 60 days preceding the date of the notice is equal to or exceeds the then applicable conversion price of the debentures, and (iii) on the redemption date, the Corporation must redeem all of the outstanding debentures that have not then been converted into common shares.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

JUNE 30, 2010

10. Convertible debentures (continued)

For accounting purposes, the debentures contain both a liability component and an equity component, being the holders' conversion rights, which have been separately presented on the balance sheet. The Corporation allocated the face value of the debentures to the liability and equity components. At issuance, the Corporation estimated the fair value of the conversion option by deducting the present value of the future cash outflows of the debentures, if no conversion rights are attached, from the face value of the principal of the debentures. The fair value of the liability component was determined by discounting the stream of future payments of loan principal and interest at the estimated prevailing market rate of 15.74% for a comparable debt instrument that excluded any conversion privilege by the holders. The residual carrying value of the debentures are to be accreted to the redemption value of the debenture to the redemption date of the debenture based on an effective annual interest rate.

	June 30	December 31
	2010	2009
Face value of convertible debentures	\$ 5,000,000	\$ 5,000,000
Plus: accretion	536,885	379,149
Less: debt issue costs	(160,000)	(160,000)
Equity portion of convertible debenture	<u>(734,500)</u>	<u>(734,500)</u>
	<u>\$ 4,642,385</u>	<u>\$ 4,484,649</u>

11. Asset retirement obligations

Future asset retirement obligations are estimated based on the company's net ownership interest in all the wells and facilities, the estimated costs to reclaim and abandon the wells and facilities and the estimated timing of the costs to be incurred in future periods. Management of the Company has estimated the total undiscounted cash flows required to settle the obligations will be \$262,500. The obligations have been discounted using a credit adjusted risk free rate of 6.1% and an inflation rate of 2% per year. Most of these obligations are not expected to be paid until approximately 15 years in the future and will be funded from general Company resources at that time.

12. Income taxes

Future income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. Significant components of the Corporation's future assets and liabilities are as follows:

	June 30	December 31
	2010	2009
Future income tax asset (liability)		
Non-capital loss carryforwards	\$ -	\$ 714,433
Deferred share issue costs	271,800	354,917
Mineral properties	(574,004)	-
Property and equipment	(301,000)	-
Investments	<u>(616,113)</u>	<u>(3,119,135)</u>
	<u>\$ (1,219,317)</u>	<u>\$ (2,049,785)</u>

In 2009, the Corporation raised gross proceeds in an amount equal to \$8,599,362 from a private placement. A total of 3,127,041 units were sold at an issue price of \$2.75 per unit. Each unit is comprised of one common share and one common share purchase warrant, exercisable at \$3.50 within the next 2 years. In addition to the units sold, the Corporation completed a share exchange transaction with Grafton Resource Investments Ltd. ("Grafton") in which the Corporation issued to Grafton 333,334 common shares at \$3.00 per share, in exchange for 21,985 shares of Grafton, representing a value of \$1,000,002 based on the net asset value per share of Grafton as at May 29, 2009. Grafton is a closed-end resource fund managed by Newland Fund Management LLP of London, England. An exchange was also completed with Pinetree Capital Ltd. ("Pinetree"), a diversified investment, financial advisory and merchant banking firm focused on the small-cap market. The Corporation issued Pinetree 815,000 units in exchange for 914,796 shares of Pinetree representing a value of \$2,241,250.

The agents for the private placement received a fee comprised of a commission and a work fee totalling \$758,250. As additional consideration the Corporation issued 312,992 broker warrants and agreed to pay a commission of 3.0% of any amount the Corporation receives from the exercise of any warrant underlying the units.

Stock option plan

The directors of the Corporation have adopted, and the shareholders have approved, a stock option plan (the "Option Plan"), pursuant to which the directors may from time to time grant options for up to 10% of its issued and outstanding shares. The purpose of the Option Plan is to attract, retain and motivate directors, employees and consultants of the Corporation and its subsidiaries and to advance the interests of the Corporation by providing such persons with the opportunity, through stock options, to acquire an equity interest in the Corporation.

JUNE 30, 2010

13. Common shares (continued)
Stock option plan (continued)

A summary of the status of the Corporation's stock option plan and changes during the period ended June 30, 2010 is presented below.

	June 30, 2010		December 31, 2009	
	Options	Price	Options	Price
Outstanding, beginning of period	295,000	2.08	75,000	\$ 10.00
Options cancelled	-	-	(75,000)	(10.00)
Options cancelled	-	-	(25,000)	(2.00)
Options granted	300,000	2.35	295,000	2.00
Options granted	-	-	25,000	2.38
Outstanding, end of period	595,000	\$ 2.22	295,000	\$ 2.08

During the first quarter of 2010, the board of directors of the Corporation approved a grant of 280,000 stock options pursuant to the Corporation's 2008 Stock Option Plan. Of the options granted, 195,000 of the options were to directors and executive officers with the balance granted to employees. The options are exercisable at \$2.35 per share, and if not exercised, expire March 25, 2020, subject to earlier expiration in accordance with the 2008 Stock Option Plan and applicable policies of the TSX Venture Exchange.

During the current quarter, the board of directors of the Corporation approved a grant of 20,000 stock options pursuant to the Corporation's Stock Option Plans. The options are exercisable at \$2.35 per share, and if not exercised, expire June 21, 2020, subject to earlier expiration in accordance with the 2008 Stock Option Plan and applicable policies of the TSX Venture Exchange.

Also during the current quarter, the board of directors of one of the subsidiary companies approved a grant of 1,914,100 stock options pursuant to the Corporation's Stock Option Plans. The options are exercisable at \$0.33 per share, and if not exercised, expire May 28, 2020. The stock options of the subsidiary company have a vesting period of 3 years.

The value of options issued using the Black-Scholes option-pricing model, was \$635,781, which was allocated to the stock-based compensation expense with a corresponding increase in contributed surplus. Assumptions used in the pricing model for the year are as follows: risk-free interest rate of 2.64-3.47%, expected life of options 10 years, annualized volatility 84.3% and dividend rate of nil.

Warrants

On certain issues of common shares, the Corporation has attached warrants entitling the holder to acquire additional common shares of the Corporation. A summary of the outstanding warrants is as follows:

	Warrants	Average Price
Balance, December 31, 2008	-	\$ -
Granted	3,942,041	3.50
Balance, December 31, 2009	3,942,041	3.50
Granted	-	-
Balance, June 30, 2010	3,942,041	\$ 3.50

JUNE 30, 2010

13. **Common shares (continued)**

Broker warrants

On certain issuances of common shares, the Corporation granted broker warrants as partial consideration to the agents for services associated to such share issues. A summary of the outstanding broker warrants is as follows:

	<u>Warrants</u>	<u>Price</u>	<u>Value</u>
Balance, December 31, 2008	-	\$ -	\$ -
Granted	<u>312,992</u>	<u>2.75</u>	<u>387,162</u>
Balance, December 31, 2009	312,992	2.75	387,162
Granted	<u>-</u>	<u>-</u>	<u>-</u>
Balance, June 30, 2010	<u>312,992</u>	<u>\$ 2.75</u>	<u>\$ 387,162</u>

The value of broker warrants issued in 2009, using the Black-Scholes option-pricing model, was \$387,162 which was allocated to the share issue costs with a corresponding increase in contributed surplus. Assumptions used in the pricing model for the year are as follows: risk-free interest rate 1.27%, expected life of options 2 years, annualized volatility 83% and dividend rate of nil.

Contributed surplus

The fair values of certain stock options have been valued using the Black-Scholes option-pricing model. The fair value on the grant of these securities is added to contributed surplus. Upon exercise, the corresponding amount of contributed surplus related to the security is removed from contributed surplus and added to share capital. A summary of the contributed surplus activity is as follows:

	<u>June 30 2010</u>	<u>December 31 2009</u>
Balance, beginning of period	\$ 1,465,871	\$ 635,818
Fair value of broker warrants	-	387,162
Fair value of stock options granted	<u>635,781</u>	<u>442,891</u>
Balance, end of period	<u>\$ 2,101,652</u>	<u>\$ 1,465,871</u>

Shareholder rights plan

The directors of the Corporation have approved a shareholder rights plan ("Rights Plan"). In the event a bid to acquire control of the Corporation is made, the Rights Plan is designed to give the directors of the Corporation time to consider alternatives to allow shareholders to receive full and fair value for their shares. In the event that a bid, other than a permitted bid, is made, shareholders become entitled to exercise rights to acquire common shares of the Corporation at a significant discount to the market price.

Normal course issuer bid ("NCIB")

The Corporation, in August 2008, announced its intention to commence a NCIB pursuant to which it could repurchase up to 185,865 common shares during the period commencing August 6, 2008 and ending on the earlier of August 6, 2009 and the date the maximum of 185,865 common shares were repurchased. The Corporation, in July 2009, announced its intention to commence a new NCIB pursuant to which it may repurchase up to 720,823 common shares during the period commencing August 7, 2009 and ending on the earlier of August 6, 2010 and the date which the Corporation has repurchased the 720,823 common shares. Purchases under the bids are to be made in open market transactions through the facilities and in accordance with the rules of the TSX Venture Exchange at market prices prevailing at the time of acquisition. All common shares purchased under the bids are to be cancelled. The Corporation purchased 140,800 common shares pursuant to these NCIBs during the year ended December 31, 2009 and 271,399 shares for the period ended June 30, 2010.

15. Commitments

The Corporation's subsidiary is committed to spend \$3,313,600 in qualifying cumulative exploration expenditures by December 31, 2010.

The Corporation has committed to purchase an additional \$650,000 of units in Lex Capital Inc.

49 NORTH RESOURCES INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

JUNE 30, 2010

16. Capital management

The Corporation's objectives when managing capital are:

- (a) to ensure that the Corporation maintains the level of capital necessary to meet the requirements of its brokers and bank;
- (b) to allow the Corporation to respond to changes in economic and/or marketplace conditions by maintaining the Corporation's ability to purchase new investments;
- (c) to give shareholders sustained growth in shareholder value by increasing shareholders' equity; and,
- (d) to maintain a flexible capital structure which optimizes the cost of capital at acceptable levels of risk.

The Corporation manages its capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of its underlying assets. The Corporation maintains or adjusts its capital level to enable it to meet its objectives by:

- (a) realizing proceeds from the disposition of its investments;
- (b) utilizing leverage in the form of margin (due from brokers) and the Corporation's bank credit line (bank indebtedness);
- (c) raising capital through equity financings;
- (d) borrowing funds in the form of advances from related parties; and,
- (e) purchasing the Corporation's own shares for cancellation pursuant to its normal course issuer bid.

The Corporation is not subject to any capital requirements imposed by a regulator. There were no changes in the Corporation's approach to capital management during the period. To date, the Corporation has not declared any cash dividends to its common shareholders as part of its capital management program. The Corporation's management is responsible for the management of capital and monitors the Corporation's use of various forms of leverage on a daily basis. The Corporation expects that its current capital resources will be sufficient to discharge its liabilities as at June 30, 2010.

17. Financial instruments

The investment operations of the Corporation's business involve the purchase and sale of securities and, accordingly, the majority of the Corporation's assets are currently comprised of financial instruments. The use of financial instruments can expose the Corporation to several risks, including market, credit and liquidity risks. A discussion of the Corporation's use of financial instruments and their associated risks is provided below.

(a) Liquidity risk:

Liquidity risk is the risk that the Corporation will have insufficient cash resources to meet its financial obligations as they come due. The Corporation's liquidity and operating results may be adversely affected if the Corporation's access to the capital markets is hindered, whether as a result of a downturn in stock market conditions, generally or related to matters specific to the Corporation, or if the value of the Corporation's investments decline, resulting in losses upon disposition. The Corporation generates cash flow primarily from its financing activities and proceeds from the disposition of its investments, in addition to interest and dividend income earned on its investments. The Corporation has sufficient marketable securities which are freely tradable and relatively liquid to fund its obligations as they become due under normal operating conditions.

The Corporation uses financial leverage (or "margin") when purchasing investments. Trading on margin allows the Corporation to borrow part of the purchase price of the investments (using marginable investments as collateral), rather than pay for them in full. Buying on margin allows the Corporation to increase its portfolio size by increasing the number and amount of investments through leverage. However, if the market moves against the Corporation's positions and the Corporation's investments decline in value, the Corporation may be required to provide additional funds to its brokers. Given the nature of the Corporation's business, the Corporation may not have sufficient cash on hand to meet margin calls and may be required to liquidate investments prematurely and/or at a loss, in order to generate funds needed to satisfy the Corporation's obligations.

49 NORTH RESOURCES INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

JUNE 30, 2010

17. **Financial instruments** (continued)

a) Liquidity risk (continued)

The Corporation has at times borrowed funds from other sources to meet its obligations, but there can be no assurances that such funds will be available in the future, or available on reasonable terms, and the absence of available funding and/or the sale of the Corporation's investments in order to meet margin calls could have a materially adverse impact on the Corporation's operating results. The Corporation manages liquidity risk by reviewing the amount of margin available, and managing its cash flow. The Corporation holds investments which can be readily converted into cash when required.

(b) Market risk:

Market risk is the risk that the fair value of, or future cash flows from, the Corporation's financial instruments will significantly fluctuate because of changes in market prices. The value of the financial instruments can be affected by changes in interest rates, equity and commodity prices. The Corporation is exposed to market risk in trading its investments and unfavorable market conditions could result in dispositions of investments at less than favorable prices.

The Corporation manages market risk by having a portfolio which is not singularly exposed to any one issuer or class of issuers. The Corporation's investment activities are currently concentrated primarily across several sectors in the natural resource industry, including potash, oil and gas, coal, precious metals, base metals, uranium, diamonds and other commodities.

(c) Interest rate risk:

Interest rate risk is the impact that changes in interest rates could have on the Corporation's earnings and liabilities. As at June 30, 2010, the Corporation had liabilities payable (collectively "interest risk liabilities"), which bear interest at rates fluctuating with the prime rate. All of the interest rate risk liabilities can be repaid by the Corporation at any time, without notice or penalty, which provides the Corporation with some ability to manage and mitigate its interest rate risk.

(d) Credit risk:

Credit risk is the risk associated with the inability of a third party to fulfill its payment obligations. The Corporation is exposed to the risk that third parties that owe it money or securities (in connection with its loans receivable, for example) will not perform their underlying obligations. At June 30, 2010 the Corporation had loans and advances receivable from companies, totaling \$1,217,948 (2009 - \$3,109,195) which represents approximately 2.46% (2009 - 7.39%) of the Corporation's total assets.

(e) Fair value:

The fair value of the Corporation's financial assets and liabilities approximate their carrying values unless otherwise disclosed in the accounting policies.

The following is a summary of the inputs used as of June 30, 2010 in valuing the Corporation's investments carried at fair value:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Investments, at fair value	<u>\$ 21,705,009</u>	<u>\$ 1,621,611</u>	<u>\$ 9,812,266</u>	<u>\$ 33,138,886</u>

For the period ended June 30, 2010, a reconciliation of investments measured at fair value using unobservable inputs (Level 3) is presented as follows:

Beginning balance as at December 30, 2009	\$ 9,888,140
Additional investments	6,011,035
Disposal of investments	(4,598,083)
Consolidation of investment	<u>(1,488,826)</u>
Balance at June 30, 2010	<u>\$ 9,812,266</u>

During the period ended June 30, 2010, there were no transfers in or out of the Level 3 investments, except for the consolidation of Newsk Emerging Resources Ltd.

49 NORTH RESOURCES INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

JUNE 30, 2010

19. Subsequent events

On June 29, 2010, the Corporation announced that it has engaged MGI Securities Inc. to act as agent in connection with the offer and sale, on a commercially reasonable basis, of a minimum of \$2,000,000 and a maximum of \$10,000,000 principal amount 8% convertible unsecured subordinated debentures issued in denominations of \$100 and integral multiples thereof.

On August 4, 2010 the Corporation disclosed its intention to make a normal course issuer bid for up to 1,009,345 of its common shares, representing approximately 10% of the Corporation's public float. The Bid will commence on August 7, 2010 and continue until the earlier of August 6, 2011 and the date by which the Corporation has acquired the maximum 1,009,345 common shares which may be purchased under the Bid. The Bid will be made through the facilities of the TSX Venture Exchange and the purchase and payment for the securities will be made in accordance with TSX Venture Exchange requirements at the market price of the Shares at the time of acquisition. All common shares purchased by the Corporation under the Bid will be cancelled.
