49 NORTH GROUP ANNOUNCES PROPOSED ROLLOVER TRANSACTION

SASKATOON, SASKATCHEWAN - (CNW – January 10, 2013) 49 North 2011 Resource Flow-Through Limited Partnership (the “2011 Fund”) and 49 North 2012 Resource Flow-Through Limited Partnership (the “2012 Fund”) are pleased to announce jointly with 49 North Resources Inc. (“49 North”) that they have each separately entered into an agreement (each a “Transfer Agreement”), pursuant to which, on or about February 1, 2013, the 2011 Fund and the 2012 Fund will transfer their respective assets to 49 North, on a tax deferred basis, in exchange for common shares of 49 North (the “Listed Shares”). As soon as possible following each closing, the Listed Shares received by the 2011 Fund for its assets will be distributed to the limited partners of the 2011 Fund, and the Listed Shares received by the 2012 Fund for its assets will be distributed to the limited partners of the 2012 Fund, all on a pro rata and tax deferred basis upon the dissolution of each of the 2011 Fund and the 2012 Fund (the “Proposed Rollover Transactions”). The completion of each of the Proposed Rollover Transactions is subject to the receipt of all approvals that may be necessary and the other conditions set forth in the respective Transfer Agreement.

The 2011 Fund and 2012 Fund, respectively, are the eighth and ninth 49 North flow-through funds. An investment in either the 2011 Fund or the 2012 Fund serves as a window for investing in the Listed Shares in a manner that permits investors to take advantage of risk reducing tax incentives associated with investments in flow-through funds. By acquiring the stock exchange listed shares of 49 North in one, or both, of Proposed Rollover Transactions, investors who choose to do so may obtain additional tax benefits by contributing the Listed Shares received to a self directed RRSP.

49 North is a Saskatchewan focused resource investment company with strategic operations in financial, managerial and geological advisory services and merchant banking. Our diversified portfolio of assets includes direct project involvement in the resource sector, as well as investments in shares and other securities of junior and intermediate mineral and oil and gas exploration companies.
